 **HYUNDAI**

---

# Your satisfaction is **our priority!**

Hyundai introduces a new line of 9-series battery forklift trucks.

The newly designed 3 wheel counterbalance trucks with rear wheel drive provide every operator comfortable driving, increased productivity and easy maintenance.

reddot design award  
honourable mention 2012

**Compact forklift with proven AC technology**

**Maximum performance**

**Spacious operator's cab**

**Fingertip controlled mini levers available (optional)**

**Weight indicator (optional)**

**Safety system that prevents over loading (optional)**

**Battery side loading system available**

**Wet brakes standard**

# High Efficiency & **Optimal Performance**

## **More efficient operating control levers**

Electronic directional control and secondary horn are mounted to the hydraulic lift lever for quick and precise maneuvering.

## **Advanced drive and lift performance with proven durability and low maintenance**

The enclosed drive and pump motor with AC technology combine power, high maintenance intervals and excellent durability. The ZF transmission converts the drive engine's power to any direction the driver requires.

Efficient, smooth running and compact design provide you with enhanced performance and highest productivity.

## 10/13/15BTR-9

### Curve control

Curve Control limits travel speed based on turning radius, reducing speed for a smooth, precise turning operation for the driver.

### Designed for compact aisle width and turning radius

The combination of 3-wheel design and rear wheel drive offers central pivot turning. This allows the driver to work in very confined spaces.

#### Travel Speed (MAX)

Model	Km / h
10BTR-9	13
13BTR-9	13
15BTR-9	13

#### Gradeability (MAX)

Model	%
10BTR-9	18
13BTR-9	15
15BTR-9	13

### Anti roll back system, travel speed and gradeability

Anti Roll-back system offers protection against the machine rolling back on a ramp in combination with exceptional ramp start capabilities.

# Advanced **Safety**

## **Excellent visibility for safe operation**

Optimized lift cylinder arrangement provides operator with wider visibility.  
The panoramic mirror expands the driver's view when backing up.

## **Strong overhead guard**

Exceeding CEE and ANSI regulations, the overhead guard offers great protection combined with excellent all-round visibility.

The safely designed driver's space makes your operating more comfortable.

**10/13/15BTR-9**

#### Fork safety features

When the forks are being lowered, a down-control valve maintains the controlled speed. The down-safety valve prevents forks from dropping down in case of sudden damage of hydraulic line.

#### OPSS (Operator Presence Sensing System)

When the operator is not in the seat all mast and drive movements are impossible.

#### Safety lamps & rear reflectors

Halogen headlights and rear LED combination lights offer the driver visibility in all circumstances. Rear reflectors mounted on the counterweight enhance safety for the driver and the application.

# Optimised Ergonomics & **Fast and Easy Maintenance**

## **Spacious operator cabin**

The BTR is designed as a small, compact design, yet the operator compartment has ample room for virtually any operator.

## **Grammer seat (Option)**

An easily adjustable suspension seat, based on a human engineering design, provides greater comfort reducing operator fatigue.

## **Low entrance height**

In order to get in and out of the cabine in an easy and safe way the height of the entrance step is only 400mm high.

## **Adjustable steering wheel**

To achieve a comfortable drive position, the angle of the steering column can easily be adjusted through a lever on the right-hand side of the steering column.

## **Optimized pedal position and floor mat**

The position of accelerator and throttle have been optimized through human engineering.

An ideal arrangement of components ensures easy access and convenience for maintenance.

## 10/13/15BTR-9

### Easy battery replacement

The battery compartment is equipped with a side battery removal assembly for easy removal and replacement.

### Advanced LCD Monitor

The LCD monitor with 3.2 inch graphic smart display allows the operator to easily and efficiently control the machine. The monitor provides information about speed & accelerator level, steer angle & travel direction, battery discharge indicator, hour meter & working mode. The optional load indicator displays the load weight in the monitor. The operator can select various performance modes to meet all working conditions.

**H** (High) mode

**N** (Normal) mode

**E** (Economic) mode

**Turtle mode** (maintain 7 km/h travel speed when lifting)

### Brake oil reservoir with level sensor

The enhanced brake oil reservoir, located in the upper left dash, is equipped with an electronic level sensor and easily visible through the monitor.

# New 9 Series

## Mast Specification (10/13BTR-9)

Mast Type		Maximum Fork Height (mm)	Overall Height (Lowered) (mm)	Free Lift Height (mm)		Tilt Angle Forward / Backward (deg)	Load Capacity without side shift at (500mm LC) (kg)		Load Capacity with side shift at (500mm LC) (kg)		Truck Weight (Unloaded) (kg)
